

NEW for 2008!!

SIMPLANT VIEW

SimPlant View is a FREE viewing software which provides the ability to view reformatted and cross-sectional views in addition to a 3D image of the patient's anatomy. Once it is decided that surgery is a viable option, SimPlant View is easily upgraded to SimPlant OneShot (providing access to computer guided surgery).

FEATURES INCLUDE:

- ***Fully interactive 3D image***
- ***Measure distance, angles and bone density***
- ***Panoramic, Axial and Cross-sectional views***

- ***Easily upgradable to SimPlant OneShot***
- ***Share case easily with other dentists, the dental laboratory and your patient***
- ***View scans start for as little as £160 including reformatting***
- ***And More!***
